

## STOMP WORKSHOPS

**STOMP** offers workshops to educational establishments and organisations. Our workshops can incorporate key stage 1 and above and can take up to 30 participants per session. The sessions can run from a single hour taster to a weeklong performance orientated residency. Individual sessions are tailored to the group in question, and incorporate the needs of key stage learning, covering areas such as music, movement, numeracy, physical education, design and communication skills.

The **STOMP** workshop consists of one or two “Stompers” for a full day and all the props and instruments required.

- KS 1:** Warm up games, discovering sounds, repetition, call & response. Counting, co-ordination, shapes and movement.
- KS 2:** Warm up games, tempo, dynamics, progressive counting systems. Devising & composing rhythms for solo & group work.
- KS3/4:** Exploring physicality, co-ordination, and dexterity. Syncopation, sequencing, time signatures. Combining rhythm and movement.
- 16+** Improvisation, composition and complexity of rhythm. Ensemble work, physical & spatial awareness and performance skills.

The experience begins with the basic building blocks of rhythm and invites the participants to explore performance and music using everyday objects as well as developing teamwork, listening and performing skills and physical co-ordination. Participation can be as simple or complex as the students’ abilities allow.

No previous experience of either music or dance is necessary; our only request is that participants wear comfortable loose clothing and sturdy footwear (no flip flops or high heels). This is a totally interactive process not a performance by the “Stompers”
